

AHMED KHIDR

AI Ain, UAE | www.barrowi.xyz
050 816 7686 | ahmed@barrowi.xyz

AI-focused full-stack engineer specializing in building internal web applications that automate workflows and improve organizational productivity. Experienced in owning solutions end to end—from system design and development to AI integration and deployment—while working independently in fast-moving environments. Background spans project management, operations, and technical leadership, with a strong focus on replacing manual processes through intelligent automation.

EXPERIENCE

AI SOLUTIONS ENGINEER

BlazingBoost SRL | Milano, Italy (Remote)
2025 – PRESENT

Designed and developed end-to-end, AI-powered web applications to improve productivity and automate previously manual company workflows. Worked independently with significant ownership over system architecture, backend and frontend development, and AI integration, translating business needs into scalable internal tools. Built and deployed applications that embedded AI into daily operations, streamlining processes, reducing manual effort, and enabling teams to work more efficiently.

COORDINATION MANAGER

Paradoxa AI | Dubai, UAE (Remote)
2024 – 2025

Managed remote coordination operations for large-scale social media workflows, overseeing team performance, account security, reporting, and issue resolution while improving efficiency and reducing operational friction.

PROJECT MANAGER

BlazingBoost SRL | Milano, Italy (Remote)
2021 – 2024

Managed Agile software projects across design, engineering, and stakeholders, improving delivery efficiency and reducing scope creep, while supporting technical operations and building internal tools to automate CRM and sales workflows.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

AI Ain University
EXPECTED JUNE 2028

SKILLS

- AI / LLM Integration
- Full-Stack Web Development
- Workflow Automation & Internal Tools
- System Architecture & API Design
- Process Optimization & Productivity Improvement
- Agile Project Management
